Nyarugenge District

Annual Report 2016/17

... Strengthening our future ...

Club Rafiki NGO

Nyarugenge District - Kigali City – 27 June 2017

Special thanks to :  indigo foundation

Annual Report – July 2016 to June 2017

I. INTRODUCTION

The Club Rafiki - CR, in the partnership Ministry of Youth and ICT and Nyarugenge District funded by Global Fund and our friends from different corners of the world including Indigo Foundation, individuals etc.. it is pleased to share news of the past year's successes in the **Annual Report 2016/17**. In this report, We encourage youth,

parents/guardians, and other members of the community to take a moment to attend its activities in the youth centers, sharing information about the important work that our center does to foster youth success. It also features the work and achievements of young people and staff across our working system.

“Without our center, we couldn’t be able to lean about SRH and to have fun”
said by Issa - youth attends Club Rafiki.

Additionally, we thank some of public institutions as well as National Youth Council, Ministry of Health and our youth friends like Imbuto foundation and indigo foundation-Australia, not to mention young people in the saving and anti-AIDS groups.

There are more than five sections that make up the standard this annual report:

- a. IEC on HIV, Pregnancy and STIs,
- b. Youth mobilization and sensitization on SRH, and drug use and commercialization prevention,
- c. Voluntary Counselling and Testing (VCT) of HIV and pregnancy,
- d. Conducting Interpersonal Communication (IPC) Sessions,
- e. Youth promotion over Job Creation, entrepreneurship, promotion of youth initiatives such as Clubs, cooperatives, groups and others.

CR involve PEV (Peer Educators, Volunteers) including Anti-AIDS clubs and youth leaders.

1.1. Attendance in the youth centers

During this period, CR receives numerous young boys and girls, in the different services familiar to them, youth and their friends are continuing to value the services providing for the future generation.

The tables below will show you the figures of attendances according the service on youth friendly way:

Table 1

Quarter (Q)	Male	M %	Female	F %	Total
Q - 1	39,000	74 %	13,500	26 %	52,500
Q - 2	48,000	74 %	17,000	26 %	65,000
Q - 3	54,500	75 %	18,500	25 %	73,000
Q - 4	73,000	65 %	40,000	35 %	113,000
Total	214,500	71 %	89,000	29 %	303,500

During these four quarters, youth are participating in the center differently, according the educational shows or special events organizing for humanizing younger generations, the photos below show you, how the youth joined and contributed to those events.

😊😊 We are happy today because of the radio Rwanda super stars – Journalists visiting us and we participate directly in the live show to the magic FM from RBA for 2 hours 😊😊
said by Zayana – young girl attends the CR

Anitha Pendo-Magic FM entraining youth at Club Rafiki

Youth are really friend of sports and recreation

“Dear friends when I was young girls, I didn’t dream to find the center like Club Rafiki for where can find an opportunity for developing my talent, please don’t sleep without attending the youth center, the future for you are here”

said by Anitha Pendo when 2 December 2012 during the roadshow of Magic FM at Club Rafiki.

1.2. Voluntary Counselling and HIV Testing (VCT services)

The following table is the figures of youth attended the VCT service:

Table 2

Club Rafiki YFC	Counseled and Tested			HIV Positive			HIV Prevalence		
	M	F	Total	M	F	Total	M%	F%	General
Quarter 1	625	516	1,141	3	21	24	0%	2%	2%
Quarter 2	613	473	1,086	6	12	18	1%	1%	2%
Quarter 3	480	380	860	8	18	26	1%	2%	3%
Quarter 4	804	577	1381	14	26	40	1%	1%	2%
Total	2,522	1,946	4,468	31	77	108	1%	2%	3%

In this year, CR received and tested 4,468 youths explaining that 2,522 were Male and 1,946 were Female, and we got 108 cases, HIV/AIDS positive and many of them are young people aged 19 to 30 years old. It means that the zero-prevalence for this year is 3% (1% Male and 2% Female) is intolerable in the country like Rwanda, which it is dreaming the better future of its younger generation.

For reducing this HIV prevalence we've to reflect on this point:

- Adding the informative dialogues to the youth because many of youth are out of information on SRH,
- Solidifying in SRH the youth initiative like clubs and saving groups others,
- totaling the educational show to the local communities
- producing modern communication materials like films and IT apps,

... We need to know more about our secret health... Sandra 16 years old, lives Rwezamenyo

... life is like water, we want to know more with our peers, please if it's possible we need someone here which oversees health education for youth... Yousouf – young boy lives at Nyamirambo

Educating young people on SRH is big support for them – Voice of Youth at Kanyinya sector

After the sessions on SRH, young people choose the Condoms as one of STIs and HIV protector

1.3. Pregnancy test

Table 3

Age bracket							
Quarter	Results	Below 16 yrs old	16-20 yrs old	21-25 yrs old	26-30 yrs old	Above 30 yrs old	Total
Q - 1	Negative	0	26	35	43	54	158
	Single	0	18	18	15	10	61
	Positive	0	10	14	20	21	65
Q - 2	Negative	0	24	38	42	51	155
	Single	0	20	22	15	8	65
	Positive	0	8	10	16	15	49
Q - 3	Negative	0	0	0	0	0	0
	Single	0	0	0	0	0	0
	Positive	0	0	0	0	0	0
Q - 4	Negative	0	26	32	41	45	144
	Single	0	21	16	12	8	57
	Positive	0	9	11	13	16	49

Teenage pregnancy should concern All

In this period, we received 457 young girls and teenage mothers 163 equivalent of 36% of them we got positive results it means were pregnant, noticeably, we must join our effort for fighting this serious issue which can stop our dream for building the sustainable development of Rwanda.

There are other reasons that can cause teen pregnancies such as, girls without ambitions in life who don't have any dreams than to be married or other relationships that expose them to sexual activities thus pregnancy . For others, it is the result of the carelessness of parents who don't take sex education as their responsibility towards their children, some claims that they are still young to understand the whole thing according to their cultural beliefs no one should talk about sex unless it's time for one to get married while young people are the most ones who are exposed to those things they don't want to talk about like porn movies.

Mrs. Rutagengwa is a mother of 3 daughters and one son ,she says she doesn't believe in sex education as she thinks that it is a conversation for adults only and believes that sex education increases their curiosity and excitement which leads them to sexual intercourse . Unfortunately, 2 years ago, her second daughter got pregnant, she hid it from everyone, even her mother, which meant that she did not get the necessary care that should be given to a pregnant young lady and the pregnancy ended up by killing her. The calls followed a report from the Ministry of Gender and Family Promotion (MIGEPF) indicating that 17,000 young girls aged 16-19 years were impregnated in 2016 alone.

II. PREVENTION STRATEGIES

II.1. Interpersonal Communication (IPC) and Peer Education

Table 4

Period	M	%	F	%	Total
Quarter 1	2,000	65%	1,100	35%	3,100
Quarter 2	4,250	59%	2,900	41%	7,150
Quarter 3	3,500	61%	2,200	39%	5,700
Quarter 4	4,300	67%	2,100	33%	6,400
Total	26,100	63%	15,500	37%	41,600

We were achieved by using these techniques as we know Interpersonal Communication (IPC) is limited friendly interaction between two people or small group (1 to 25). Conducted by skilled people. After the dissimilar dialogues, refresher meetings, sessions and professional trainings, there are young boys and girls from Youth clubs have the knowledge for educating their friends in their hoods. Through this approach we attract and educate them on the SRH.

...I learn a lot on menstrual circle from my peer who attends the Club's activities...

Mimi-16 yrs old

...I benefit more information on sexual and reproductive health and my rights because of these programs ...**Esther is a girls of 12 years old**

Entertain - Smile — learn — change

...I appreciate this support from our friend, young boy like me... **Djabil 16 years old – Club Rafiki**

II.2. Video Shows (mobile and fixed)

Table 5

Period	M	%	F	%	Total
Quarter 1	9,100	75%	3,000	25%	12,100
Quarter 2	4,600	59%	3,200	41%	7,800
Quarter 3	3,100	58%	2,250	42%	5,350
Quarter 4	5,700	57%	4,300	43%	10,000
Total	22,500	64%	12,750	36%	35,250

Pedagogical there are many benefits to using video in education, especially for educating the younger generation, by using informative video, we get more information related the life of youth, because video facilitates the dialogue between them, is transformative way video can impact on teaching and learning and encourages youth for behavior.

...I like to watch educational films in the Club Rafiki, It's increasing my knowledge...
Fils – 20 yrs old

As recommended, we need more films and to provide support to young people to make more

III.3. Special event

Table 6

Period	M	%	F	%	Total
Quarter 1	14,000	65%	7,500	35%	21,500
Quarter 2	6,000	63%	3,500	37%	9,500
Quarter 3	3,500	70%	1,500	30%	5,000
Quarter 4	4,000	57%	3,000	43%	7,000
Total	27,500	64%	15,500	36%	43,000

During this sensitization and mobilization activity, young people gained information and testimonies on the HIV/AIDS as well as the importance of HIV testing. The several leisure programs like music and dance, sketches, the football match and shows...led by boys and Girls from Urban Dance School.

...I'm very happy for this event organized in our gate, we reached together with our children more information... **Haruna, one of parent living in Nyamirambo Sector**

...Oh my God !!! we are in the danger life, my girlfriend called Keza has born a Child with me, I haven't money for living with her, she is living an unhappy life like me, I stopped my school, finally, my future is very far... the activity like this can be usually...

Testimony of Kelly young boy of 20 years old at this mobilisation event

...We have to help our children to get information by family dialogues especially on sexual and Reproductive Health, if you agree with me surely will stop the problems against our girls and boys like early pregnancies.... **Noella - Executive Secretary of Mumena Cell**

It is better to participate and fail than fail to participate

II.4. Cumulative data of youth mobilized for positive behavior change

HIV Prevention and Anti-drugs mobilization

Table 7

Period	M	%	F	%	Total
Quarter 1	2300	73%	850	27%	3150
Quarter 2	4200	68%	1950	32%	6150
Quarter 3	2980	61%	1940	39%	4920
Quarter 4	6620	90%	747	10%	7367
Total	29,900	75%	10,124	25%	40,024

Additionally, youth as individuals or initiatives organizing and participating in mobilization shows with aim to know more how young people can contribute to the Rwandan development by fighting and preventing HIV and Drugs use. The table above shown how the young people contribute in that area.

...As young people we have to contribute for preventing HIV and Drugs use, we are busy for preparing our future... **Emmanuel – Youth from Smart Guys**

Together we can face any challenges as deep as the ocean and as high as the sky

II.5. Condoms distribution

Table 8

Period	Male	%	Female	%	Total
Quarter 1	7,809	82%	1,721	18%	9,530
Quarter 2	5,590	86%	910	14%	6,500
Quarter 3	7,395	90%	825	10%	8,220
Quarter 4	9,080	91%	920	9%	10,000
Total	29,874	87%	4,376	13%	34,250

Condoms promotion and distribution to prevent HIV/AIDS

Condoms can prevent infection by reducing the likelihood of transmission during sexual intercourse, that is the way we have chosen to promote these materials for saving the lives of youth, there are two main activities we used for promoting condoms.

Promotion : Condom promotion can be conducted in many ways, including through mass media, Anti-AIDS clubs, lodges and targeted distribution.

Distribution : Condoms may be freely distributed to youth as individual or groups

... if I need to condoms I come to the Club Rafiki for taking it for free... **said Eric – youth – 23 yrs old**

...We need a condom distribution machine for helping everyone to access...

said Hawa -Volunteer Peer educator in Anti-AIDS clubs

Youth need condoms

III. YOUTH ECONOMIC EMPOWERMENT

III.1. Training on Entrepreneurship skills

Table 9

Period	M	%	F	%	Total
Quarter 1	100	56%	80	44%	180
Quarter 2	74	80%	18	20%	92
Quarter 3	55	71%	23	29%	78
Quarter 4	70	67%	34	33%	104
Total	498	68%	230	32%	728

In the Beginning, middle October to end of November 2016, Club Rafiki in partnership with a child led Organization called Children's Voice Today with funded by Save the Children, through Reach Up! Program of DOT Rwanda, we trained teenagers from Nyakabanda and Nyamirambo Sectors on entrepreneurship and job creation. After the training, the trainees are follow another vocational training on hairdressing and beauty.

... I gained a lot from this training, I want to start my own business for preparing my future...

said Alice – 18 yrs old – Nyamirambo sector

...I stopped my study when I was in P5, but after this training I will graduate in the business sector...

Pascal – 21 yrs old – Nyakabanda sector

*"I don't compete,
I dominate.
I don't
participate,
I partner.
I AM AN
ENTREPRENEUR."*

III.2. Training on basic ICT skills

Table 10

Period	Male	%	Female	%	Total
Quarter 1	810	58%	580	42%	1,390
Quarter 2	3,160	72%	1,250	28%	4,410
Quarter 3	734	66%	372	34%	1,106
Quarter 4	777	66%	408	34%	1,185
Total	5,481	68%	2,610	32%	8,091

Information and Communication Technology (ICT) competencies expected of all workers, regardless of workplace role, my organization would value a credential based on that standard as a way of validating Information and Communication Technology (ICT) skills for non-ICT workers. In the 21st century, an ability to work with information and communication technologies is becoming as essential to education, life and workplace success as reading, writing and arithmetic.

Information and Communication Technology (ICT), or digital literacy must be recognized as a basic form of education in modern society by our schools, and must be taught to all students from an early age. This is meaning that digital literacy is very important to everyone especially young people

II.3. Cookery

Table 11

Period	M	%	F	%	Total
Quarter 1	0	0	0	0	0
Quarter 2	0	0	0	0	0
Quarter 3	0	0	0	0	0
Quarter 4	12	26%	34	64%	46
Total	70	24%	218	76%	288

As general issue, the young girls do not participate in the center as their brothers, day to day we are thinking how we can help the to participate in the center, in that way we are starting this activity for helping young girls learn cookery, will continue this next year, we will share with you the information related to the progress.

IV. SPORTS AND ENTERTAINMENT

Table 12

Period	M	%	F	%	Total
Quarter 1	32,000	77%	9,300	23%	41,300
Quarter 2	34,500	70%	15,000	30%	49,500
Quarter 3	37,000	73%	14,000	27%	51,000
Quarter 4	75,000	65%	40,000	35%	115,000
Total	178,500	70%	78,300	30%	256,800

CR strongly learned that using effectively sports and recreation, and entertainment as powerful tools for youth expression and civic engagement, during this year youth are participated than the previous year because of more events organized in their center. Which means that we should provide more materials for continuing to develop their talents in this domain.

... no sport I feel sick... **Jean – 16 yrs participate in Club Rafiki**

...Basketball takes big part of my life, because sport is a life...
Papy – 18 yrs Basketball player in Espoir

“Time is a game played beautifully by children.”

V. ANTI-AIDS CLUBS ACTIVITIES

Table 13

	<i>Sexual and Reproductive health</i>					<i>Saving activities and Small businesses creation</i>					
Period	M	%	F	%	Total	M	%	F	%	Total	Saving amount
Quarter 1	213	65%	114	35%	327	151	60%	99	40%	250	18,840
Quarter 2	330	59%	225	41%	555	242	51%	232	49%	474	21,890
Quarter 3	2,215	65%	1,195	35%	3,410	717	42%	984	58%	1,701	15,130
Quarter 4	350	64%	197	36%	547	311	62%	190	38%	501	22,290
Total	3,108	64%	1,731	36%	4,839	1,421	49%	1,505	51%	2,926	78,150

The anti-AIDS and drugs youth clubs, currently those young groups are fighting unnecessary things to their peers, by promoting positive values like saving for starting the small business with dreams to be an entrepreneur, with 25 clubs we are supervising are educating their 4,839 friends to the community about SRH and they started saving group by today FRW 78,150 are saved by themselves.

... In our club I benefit friends and knowledge, after the training on entrepreneurship I started the livestock project... **Alicia – girls aged 18 – Best future - Mageragere Sector**

... after getting more information on HIV prevention and a role of Drugs to destroy my future now I'm a girl with vision and my study is priority...

Afsa – Smart guys – Nyarugenge sector

Training on 75 volunteer Youth peer educators from AGR – CLUB RAFIKI – YEGO KIMISAGARA organized by MYICT on 17 to 19 May 2017

VI. STRENGTHS

Countless institutions including public institutions such as Ministry of Youth and ICT, Ministry of Health, National Youth Council, Kigali City and Nyarugenge District, Media practitioners identical to Magic FM, Flash FM, Family TV...and businesses centers the same as Kibaza link media Ltd, Mbata-Dology Ltd (Popular Comedians), musicians like Tom Close, Senderi, Fireman, Davis etc they assisted us in this Semester and we organized together some activities.

VII. DIFFICULTY

- No regular follow up to the youth's activities,
- Lack of promotional materials even some developed by youth themselves like films and drawings poems, songs etc..
- Lack of field equipment while special events like tents and chairs,
- Some activities do not organize because of financial supports.

VIII. FUTURE PLAN

- increasing collaboration with other partners including Nyarugenge District,
 - caregivers and whole communities by dialogue, meetings, and events on the adolescents' protection and accompaniment,
 - Organizing more trainings and events of teenagers focusing in the villages on sexual and reproductive health and rights,
 - Publishing the 5 years participative strategic plan of CR
- Organising and continuing the program of vocation trainings such as filming and editing video, hairdressing, painting, handcraft, which can help young people to create their jobs.

VIII. CONCLUSION

This progress report designed in use friendly, We presented information about the achievements with some stories of beneficiaries, financial situation, successes, difficulties, future plan, and conclusion But it is important to develop and submit more proposals on adolescents' protection and accompaniment for the future.

Thank you
