Nyarugenge District**

Special thanks to :  **indigo foundation**

Annual Report – July 2017 to June 2018

I. INTRODUCTION

The Club Rafiki - CR, in the partnership Ministry of Youth and Nyarugenge District funded by Global Fund and our friends from different corners of the world including Indigo Foundation, individuals etc.. It is pleased to share news of the past year's successes in the **Annual Report 2017/18**. In this report, We encourage youth, parents/guardians, and other members of the community to take a moment to attend its activities in the youth centers, sharing information about the important work that our center does to foster youth success. It also features the work and achievements of young people and staff across our working system.

Young people of Africa have a lot of talent that may not come out without the kind of opportunities provided by such projects.”

H.E. Paul Kagame, opening remarks of CLUB RAFIKI basketball Courts Kigali, 8 August 2017

“Youth as a gift of the nature, we need a support for everyone for changing our life today and tomorrow’ said by Djalila – 16 yrs old - Urban Dance School – participant.

Additionally, we thank some of public institutions as well as National Youth Council, Ministry of Health and our youth friends like Imbuto foundation and indigo foundation-Australia, not to mention young people in the saving and anti-AIDS groups.

Sexual and reproductive health and rights or SRHR is the concept of human rights applied to sexuality and reproduction. It is a combination of **four fields** that in some contexts are more or less distinct from each other, but less so or not at all in other contexts.

These four fields are: (1) Health, (2) sexual rights, (3) reproductive health and (4) reproductive rights.

More than 2.9 billion people - nearly half the world's population - are under the age of 25. We believe it is crucial that these young people have the knowledge and skills to succeed in life if we are to break the cycle of poverty.

In Rwanda according to the new policy by MYICT (currently is MINICYOUTH), the total youth between 16 to 30 years was 3,156,000 people according to EICV4 (2013/14). In 25–29 and 30–35 age groups, males make up 48% of the group and females 52%, which is almost similar to the national level sex ratio.

There are more than five sections that make up the standard this report:

Health:

- a. IEC on HIV, Pregnancy and STIs,
- b. Youth mobilization and sensitization on SRH, and drug use and commercialization prevention,
- c. Voluntary Counseling and Testing (VCT) of HIV and pregnancy,
- d. Conducting Interpersonal Communication (IPC) Sessions,

Youth economic empowerment and capacity building:

- e. Youth promotion over Job Creation, entrepreneurship, promotion of youth initiatives such as Clubs, cooperatives, groups and others.
- f. English Corner Workshop - ECW
- g. ICT skills

Sport and Culture promotion:

- h. Creation of Traditional Dancing troupes,
- i. Organizing Sports camps,
- j. Gym tonic, Draughts (checkers), Ink1, Boxing, Karate, Kungu-fu...

CR involves PEV (Peer Educators, Volunteers) including Anti-AIDS clubs and youth leaders.

"We cannot expect to have a country in the future while our youth are drug addicted."

*Honourable Minister of Youth,
Mrs. Mbabazi Rosemary
Kigali (Club Rafiki), 22 December 2017*

Youth appreciation note : We want to thank you for all the wonderful things that you did for us.

II. ACHIEVEMENTS

1.1. Attendance in the youth centers

During this period, CR receives numerous young boys and girls, in the different services familiar to them, youth and their friends are continuing to value the services providing for the future generation. The tables below will show you the figures of attendances according the service on youth friendly way:

Table 1

YOUTH VISITORS				
Male	Female	Total	%M	%F
198,000	73,000	271,000	73%	27%

During this year, youth are participating in the center differently, according the educational shows or special events organizing for humanizing younger generations, the photos below show you, how the youth joined and contributed to those events.

😊😊 *Thanks my Lord! We are Happy to see the President in our Center Club Rafiki, I will never forget this day in my Life...*😊😊 **said by Eric – 11 years old**

...Internet and computers are important tools for development today without these it means you have nothing... **Desire – Youth participate in the Club Rafiki**

1.2. Voluntary Counselling and HIV Testing (VCT services)

The following table is the figures of youth attended the VCT service:

Table 2

VCT								
# Counseled and Tested (VCT)				# HIV Positive			HIV Prevalence	
M	F	Couples*	TOTAL	M	F	Total	M	F
2,423	1,839	422	4,262	24	52	76	1%	1%

In this period, Club Rafiki received and tested **4,262** youths explaining that **2,423** were Male and **1,839** were Female, and we got **76** cases of HIV/AIDS positive and many of them are young people aged 19 to 30 years old. It means that the seroprevalence for this year is **1%** (**1%** Male and **1%** Female).

For reducing this HIV prevalence we've to reflect on this point:

- Adding the informative dialogues to the youth because many of youth are out of information on SRH,
- Solidifying in SRH the youth initiative like clubs and saving groups others,
- totaling the educational show to the local communities
- producing modern communication materials like films and IT apps,

Peer education is leading by youth themselves

1.3. Pregnancy test

Table 3

PREGANCY TEST							
	14-17 years old	18-20 years old	21-24 years old	25-30 years old	30 above	Total	%
Positive	0	82	105	60	33	280	27.59%
Single	1	196	146	53	26	422	41.58%
Negative	1	214	249	154	91	709	69.85%
G/TOTAL	1	296	354	214	150	1015	

In this period, we received **1,015** young girls and teenage mothers (positive cases) **280** equivalent of **27.59%** of them (last year 2016/17 the percentage was 36% it means it reduced 8.41%, we recognized the contribution of youth from Urban Dance School and our esteemed partners like Indigo Foundation...) these figures show us, the height of this issues, noticeably, we must join our effort for fighting this serious issue which can stop our dream for building the sustainable development of Rwanda/;;;/

The report from the Ministry of Gender and Family Promotion (MIGEPROF) indicating that 17,000 young girls aged 16-19 years were impregnated in 2016 alone.

II. PREVENTION STRATEGIES

Condom Distribution as tool for fighting teen's pregnancies

II.1. Interpersonal Communication (IPC) and Peer Education

Table 4

YOUTH - OUTREACH COMMUNICATION				
Male	Female	Total	%M	%F
3,793	1,919	5,712	66%	34%

We were achieved by using these techniques as we know Interpersonal Communication (IPC) is limited friendly interaction between two people or small group (1 to 25). Conducted by skilled people. After the dissimilar dialogues, refresher meetings, sessions and professional trainings, there are young boys and girls from Youth clubs have the knowledge for educating their friends in their hoods. Through this approach we attract and educate them on the SRH.

...peer education approach contributes in SRH education ...
Green – youth from UK during the visit at Club Rafiki

...outreach activity in our rural areas like Kanyinya is helping us to know more on our life...
Samuel - Basketball player_20 yrs.

Watching Educational films with specific themes are leading debate between young boys and girls on Sexual and reproductive health and HIV, teen's pregnancies and Drugs prevention.

II.2. Video Shows (mobile and fixed)

Table 5

YOUTH - VIDEO SHOWS				
Male	Female	Total	%M	%F
1,566	1,664	3,230	48%	52%

Pedagogical there are many benefits to using video in education, especially for educating the younger generation, by using informative video, we get more information related the life of youth, because video facilitates the dialogue between them, is transformative way video can impact on teaching and learning and encourages youth for behavior.

...the educational films like this help us to know more on the sexual and reproductive Health...

Barbara - 16 yrs old – Rafi 'Kids Program

...The films like this show us the reality of everything we get from the dialogue on SRH organized by Club Rafiki... **Bella – 19 yrs old**

...Where is my future, I'm young girl, I'm not able to care a baby and now I'm pregnant...

Laira -17 yrs old

As recommended, we need more films and to provide support to young people to make more

III.3. Special event

Table 6

SPECIAL EVENT				
Male	Female	Total	%M	%F
17,700	6,700	24,400	73%	27%

During this sensitization and mobilization activity, young people gained information and testimonies on the HIV/AIDS as well as the importance of HIV testing. The several leisure programs like music and dance, sketches, the football match and shows...led by boys and Girls from Urban Dance School.

Club Rafiki Urban Dance School take a part

... We appreciate the services provide by our Centers ...

Karimu 20 years old, lives Karekare Village

...Happily, today I write a new history, because I meet our president in our Centre Club Rafiki...

Young boy lives in Rwezamenyo Sector

...My dream is playing basketball as professional; today my talent is totally achieved because our president is our side...

Young girl participate in the Club Rafiki

*...no comment except Thank you our H.E Paul Kagame to be with us....***Kalibu, 12 yrs old**

President Paul Kagame on Tuesday joined Masai Ujiri, the General Manager of NBA's Toronto Raptors, who is also the founder of the Giants of Africa project, to officially launch a newly refurbished Rafiki Basketball Court in Nyamirambo, Nyarugenge District.

Masai, through his project, seeks to make a difference for children in Africa through basketball.

In his remarks, President Kagame said that young people of Africa have a lot of talent that may not come out without the kind of opportunities provided by such projects.

The organisation's mission is to use the game of basketball to educate and enrich the lives of the African youth by providing quality facilities, coaching and instruction.

Currently, 57 Rwandan children are participating in a three-day camp organised by Giants of Africa.

II.4. Cumulative data of youth mobilized for positive behavior change

HIV Prevention and Anti-drugs mobilization

Table 7

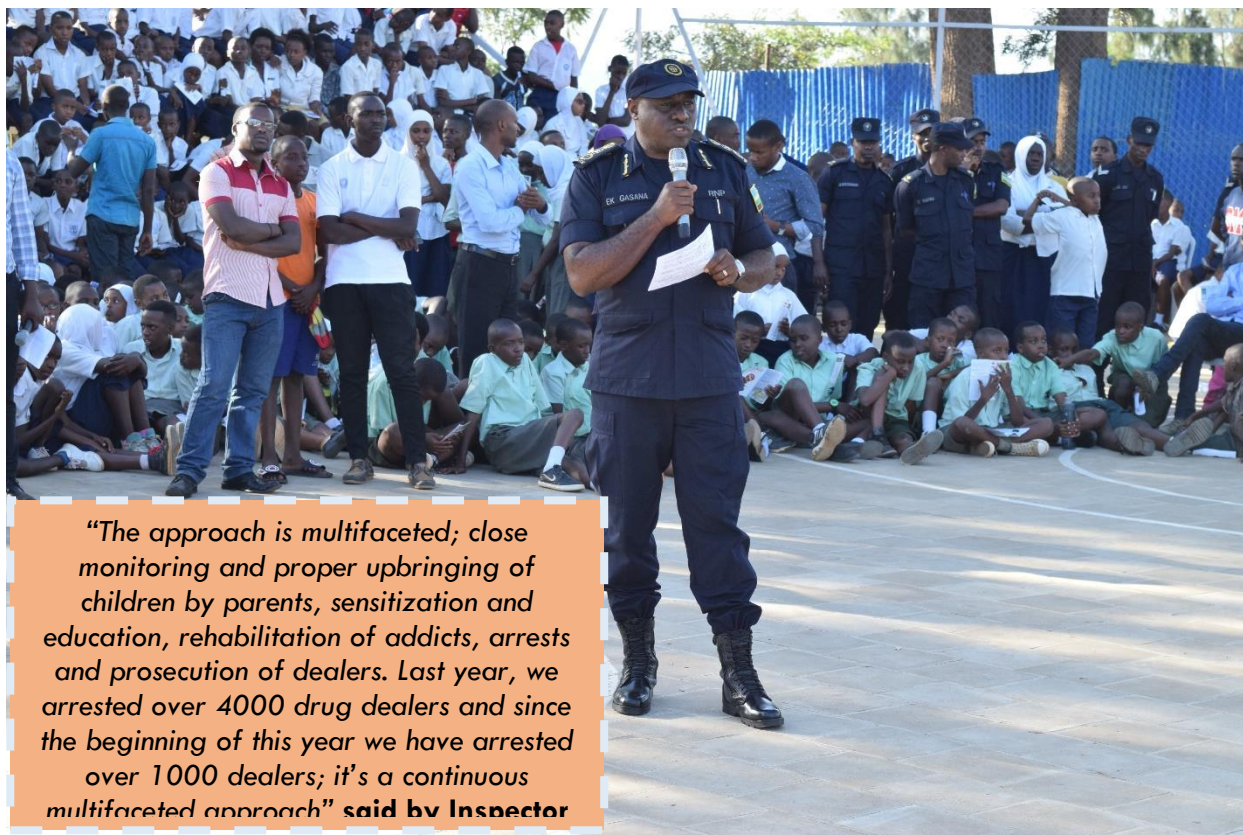

YOUTH MOBILIZED FOR POSITIVE BEHAVIOR CHANGE				
M	%	F	%	Total
52,452	72%	20,195	28%	72,647

Additionally, youth as individuals or initiatives organizing and participating in mobilization shows with aim to know more how young people can contribute to the Rwandan development by fighting and preventing HIV and Drugs use. The table above shown how the young people contribute in that area.

...As young people we have to contribute for preventing HIV and Drugs and We are busy for preparing our future... **Emmanuel – Youth from Smart Guys**

"I started abusing drugs in 2003 and for 13 years I was held hostage by drugs. I became a thief, I started assaulting people and I know many of you here are victims of my bad past,"
Said Jean Paul Bikorimana, one of the reformed dealer and addict.

"The approach is multifaceted; close monitoring and proper upbringing of children by parents, sensitization and education, rehabilitation of addicts, arrests and prosecution of dealers. Last year, we arrested over 4000 drug dealers and since the beginning of this year we have arrested over 1000 dealers; it's a continuous multifaceted approach" said by Inspector

Club Rafiki youth center, 19 May 2018: A campaign on Fighting Drugs

Between 2010 and 2015, the Neuro-psychiatric Hospital of Ndera received 1,432 patients with mental illness caused by use of drugs, according to statistics from Rwanda Biomedical Centre (RBC). The number increased to 2804 in 2016 but recorded a slight decrease to 1960 last year. Huye Isange Rehabilitation Centre received 209 cases, last year.

"I started abusing drugs in 2003 and for 13 years I was held hostage by drugs. I became a thief, I started assaulting people and I know many of you here are victims of my bad past," said Jean Paul Bikorimana, one of the reformed dealer and addict.

"Illicit drugs are like cancer; your life deteriorates, kills your brain, blinds you and diverts you from the noble cause. It is an individual and collective responsibility to make our villages free from crime and drugs in particular by reporting dealers," Minister Mbabazi said.

Inspector General of Police Emmanuel K. Gasana said that drugs are the major cause of other crimes citing assault, defilement, theft, domestic and gender-based violence, and child abuse.

"The approach is multifaceted; close monitoring and proper upbringing of children by parents, sensitization and education, rehabilitation of addicts, arrests and prosecution of dealers. Last year, we arrested over 4000 drug dealers and since the beginning of this year we have arrested over 1000 dealers; it's a continuous multifaceted approach" IGP Gasana said.

II.5. CONDOMS DISTRIBUTION

Table 8

CONDOM DISTRIBUTED				
Male	Female	Total	%M	%F
29,342	15,235	44,577	66%	34%

Condoms promotion and distribution to prevent HIV/AIDS

Condoms can prevent infection by reducing the likelihood of transmission during sexual intercourse, that is the way we have chosen to promote these materials for saving the lives of youth, there are two main activities we used for promoting condoms.

Promotion : Condom promotion can be conducted in many ways, including through mass media, Anti-AIDS clubs, lodges and targeted distribution.

Distribution : Condoms may be freely distributed to youth as individual or groups

... Condom is my protector, I cannot forget it when I think to make a sex with my girlfriend ...
Chabalala – Club Rafiki's youth participant – 25 yrs old

... Sex is not my right because I'm single but sex is like a food we need it, protection is important...**Yaya – 30 yrs old – lives at Kicukiro**

Youth urged to fight against Drug Abuse

Honorable Minister of Youth, Ms. Mbabazi Rosemary has urged youth of Rwanda to turn away from risk behaviors in order to ensure their bright future and country's as well.

She was speaking to thousands of Youth who were gathered at Club Rafiki YEGO Center in Nyamirambo, Nyarugenge District and those who were following live on Magic FM of RBA during the campaign organized to sensitize youth to avoid drug abuse, unplanned pregnancies and other vices today, on 22 December 2017.

"We cannot expect to have a country in the future while our youth are drug addicted," said Minister Mbabazi who requested youth to indicate drug dealers and drug abusers to security organs. "Together we can deliberately eliminate drugs," she added

Ms. Kayisime Nzaramba, the Mayor of Nyarugenge District who participated in the campaign said that the youth who are drug addicted could not have a vision. She went on saying that drug abuse is the main cause of other vices as unwanted pregnancies, getting HIV/AIDS and other Sexual Transmission Infections among others.

Youth who attended the campaign committed to play their role to fight against drug abuse and other risk behaviors by being role models to their peers who are drug addicted, revealing drug abusers and dealers among others.

The campaign was in the line of Youth in Holidays Programme (YHP) organized by Ministry of Youth and the National Youth Council in partnership with Ministry of Local Government, Ministry of Gender and Family Promotion, Ministry of Education, Ministry of Defense, Rwanda National Police, National Itorero commission, National Women Council and other partners.

YHP aims at taking care of children and youth in school and out of school during these holidays and keep them away from risk behaviors.

...We are forever grateful that you were able to share our event with us...

III. YOUTH ECONOMIC EMPOWERMENT

III.1. Training on Entrepreneurship skills

Table 9

Digital Ambassadors Programm – DAP				
M	%	F	%	Total
304	68%	140	32%	444

We continued to train teenagers from Nyarugenge District on entrepreneurship and job creation, through Digital Ambassadors Programm – DAP and after the training we educated them on the importance working together with their friends in the Cooperative.

... I gained a lot from this training, I want to start my own business for preparing my future...
said Alice – 18 yrs old – Nyamirambo sector

...I stopped my study when I was in P5, but after this training I will graduate in the business sector... **Pascal – 21 yrs old – Nyakabanda sector**

Computer literacy as solution for the world today

III.2. TRAINING ON BASIC ICT SKILLS

Table 10

COMPUTER LITERACY - ICT SKILLS – USING INTERNET BY COMPUTERS or SMART PHONES				
M	%	F	%	Total
8,485	77%	2,513	23%	10,998

During this period we received 452 in the ICT trainings and those figures are including in the figure mentioned in the table 10 and 18 (15 Males and 3 Females) are got their certificates after Training

Information and Communication Technology (ICT) competencies expected of all workers, regardless of workplace role, my organization would value a credential based on that standard as a way of validating Information and Communication Technology (ICT) skills for non-ICT workers. In the 21st century, an ability to work with information and communication technologies is becoming as essential to education, life and workplace success as reading, writing and arithmetic.

Information and Communication Technology (ICT), or digital literacy must be recognized as a basic form of education in modern society by our schools, and must be taught to all students from an early age. This is meaning that digital literacy is very important to everyone especially young people.

ICT and Club Rafiki

- Free WIFI in the all parts of the Center
- 16 Computers and Printers for helping everyone need to use computers and internet
- Availability of Library to everyone need to use its laptop.

The foundation of every state is the education of its youth.

II.3. COOKERY / CULINARY

Table 11

COOKERY / CULINARY				
M	F	Total	M%	F%
128	218	346	37%	63%

As general issue, the young girls do not participate in the center as their brothers, day to day we are thinking how we can help the to participate in the center, in that way we are starting this activity for helping young girls learn cookery, will continue this next year, we will share with you the information related to the progress.

IV. ENGLISH CORNER, SPORTS AND ENTERTAINMENT

Table 12

English Corner Workshop			Modeling			Bar Fixe and Parallele		
M	F	Total	M	F	Total	M	F	Total
647	421	1,068	238	475	713	25,640	-	25,640
Urban Dance School			Badminton			Basketball		
M	F	Total	M	F	Total	M	F	Total
667	370	1,037	133	40	173	36,000	18,000	54,000
Volleyball			Draught/Dame			Karate		
M	F	Total	M	F	Total	M	F	Total
21000	4700	25700	16500	0	16500	1727	557	2284
Kung-Fu			Table tennis			GRAND TOTAL		
M	F	Total	M	F	Total	M	F	Total
725	516	1241	190	114	304	103,467	25,193	128,660

CR strongly learned that using effectively sports and recreation, and entertainment as powerful tools for youth expression and civic engagement, during this year youth are participated than the previous year because of more events organized in their center. Which means that we should provide more materials for continuing to develop their talents in this domain.

...Sports can be a habit for everyone, let's do it for our health...

Kelvin – player and coach of basketball

Rafi'Kids initiative decides to devote time for these children and youth and to transmit to them his passion for promoting their talent.

V. ANTI-AIDS CLUBS ACTIVITIES

Table 13

Sexual and Reproductive health					Saving activities and Small businesses creation					
M	%	F	%	Total	M	%	F	%	Total	Saving amount
2,838	64%	1,598	36%	4,436	1,213	55%	987	45%	2,200	93,720

The anti-AIDS and drugs youth clubs, currently those young groups are fighting unnecessary things to their peers, by promoting positive values like saving for starting the small business with dreams to be an entrepreneur, with 26 clubs we are supervising are educating their **4,436** friends to the community about SRH and they started saving group by today **FRW 93,720** are saved by themselves.

...Without our clubs like smart guys, we cannot learn a lot on our health precisely SRH and R...

Girls empowerment

Promotion of reading Culture

Urban Dance School performance at the event

...Reading is conversation. All books talk. But a good book listens as well...

Mark Haddon

VI. STRENGTHS

Countless institutions including **public institutions** such as Ministry of Youth, Ministry of Sport and Culture, Ministry of Information, Technology and Communications, Ministry of Health, National Youth Council, **local government** like Kigali City and Nyarugenge District, **Media practitioners** identical to Rwanda broadcasting Agency – RBA, Magic FM, Flash FM, Family TV...and **businesses centers** the same as Kibaza link media Ltd, Mbata-Dology Ltd (Popular Comedians), **musicians** like the Ben, Man Martin, Tom Close, Senderi, Fireman, Davis etc. they assisted us in this Semester and we organized together some activities for promoting young people.

VII. DIFFICULTY

- No regular follow up to the youth's activities especially in rural areas,
- Lack of promotional materials even some developed by youth themselves like films and drawings poems, songs etc..
- Lack of field equipment while special events like tents and chairs,
- Some activities do not organize because of financial supports.

VIII. FUTURE PLAN

- increasing collaboration with other partners,
- caregivers and whole communities by dialogue, meetings, and events on the adolescents' protection and accompaniment,
- Organizing more trainings and events of teenagers focusing in the villages on sexual and reproductive health and rights,
- Organizing activities according 5 years strategic plan of Club Rafiki
- Organizing, opening and continuing the program of vocation trainings such as filming and editing video, hairdressing, painting, handcraft, which can help young

people to create their jobs.

VIII. CONCLUSION

This progress report designed in use friendly, we presented information about the achievements with some stories of beneficiaries, financial situation, successes, difficulties, future plan, and conclusion but it is important to develop and submit more proposals on adolescents' protection and accompaniment for the future.

Thank you

Done at Kigali – Club Rafiki on 15 July 2018
