

ANNUAL REPORT

July 2025 – June 2026

Gratitude

Dear Leaders, Partners, Friends, and Young People,

Warm greetings!

We are pleased to share with you the achievements of Club Rafiki during the July 2025–June 2026 fiscal year. This year began on a particularly inspiring note as we were honored, for the third time, to welcome His Excellency Paul Kagame, President of the Republic of Rwanda, on August 3, 2025. Accompanied by distinguished guests from Rwanda and abroad, he spent time engaging with young people, playing with them and sharing encouraging messages. This memorable visit strengthened our commitment to empowering youth and advancing positive change in our communities.

Warm regards,

Stéphanie ALAMBA
Legal Representative, Club Rafiki

Kigali, June 27, 2026

A DAY OF INSPIRATION

CONNECTING RWANDA'S YOUTH WITH GLOBAL ROLE MODELS

“Let me begin by thanking Kawhi for taking the time to be here, connecting with these young people and helping them nurture the talent within themselves. It means a great deal to them, and to us, as we continue investing in our youth: helping them discover what they love and pursue it with excellence. For many, that passion is found in different sports, and in this case, in basketball.”

This afternoon 3 August 2025, at Rafiki Club, H.E. Paul Kagame, President of Republic of Rwanda joined Giants of Africa Co-founder Masai Ujiri, and two-time NBA Champion Kawhi Leonard for a Giants of Africa Camp convening 50 young people from across the country at Club Rafiki.

I. INTRODUCTION

Since 1974, Club Rafiki has been working alongside young people, helping them grow, discover their talents, and make a positive impact in their communities. This annual report for the year ending June 2026 highlights achievements across our six focus areas: health, sports and entertainment, technology, employment and entrepreneurship, culture and civic education and talent development. We sincerely thank our dedicated volunteers and partners whose passion, energy and commitment continue to inspire change and create more opportunities for young people.

A Healthy Life, My Dignity – YOUTH LEADING THE WAY

On July 23, 2025, Club Rafiki in partnership with the City of Kigali, officially launched the Youth Holiday Program under the theme **“A Healthy life, My Dignity.”** The event was attended by the Vice Mayor of the City of Kigali, Mrs. Urujeni Martine; the Minister of State in the Ministry of Youth and Arts, Mrs. Sandrine Umutoni, as well as other leaders and parents. Over one month, young people participated in sports, recreational and life-skills activities held three times a week. The program helped youth build confidence, learn positive values, make new friends and stay active.

Kwibuka 32

remember - unite - renew

Standing Together in Remembrance and Unity

During the 32nd Commemoration of the 1994 Genocide against the Tutsi, Club Rafiki joined GS Kanyinya, local leaders, and community members to honor the victims, remember our shared history, and reaffirm our commitment to unity, resilience, and building a peaceful future where "Never Again" remains a shared responsibility.

CHAMPIONS COME HOME

RSSB TIGERS INSPIRE THE NEXT GENERATION AT CLUB RAFIKI

13 June 2026: The RSSB Tigers brought their BAL Championship Trophy 2026 to Club Rafiki, parading through Kigali streets before presenting it to their fans. Accompanied by Minister of Sports Hon. Nelly Mukazayire, the visit created an unforgettable moment for Kigali's youth. Young athletes witnessed living proof that discipline, hard work, and dedication transform dreams into reality.

"When I saw the trophy, I decided I will play basketball and win one day too," said 8-year-old Amir, cheerful with pride.

This champion visit will forever fuel the next generation's ambitions.

Hon. Nelly Mukazayire
Minister of sports

II. ACHIEVEMENTS

This year, Club Rafiki achieved significant milestones in empowering youth, strengthening communities, and creating opportunities for growth and success.

1. The center’s participants

These services ensure that youth feel safe, supported, empowered, and fully engaged in activities that promote their well-being and development.

Table 1 The number of youth visited the center

Male	Female	Total	Male %	Female %
637,015	347,723	984,738	65%	35%

NOTE:

Youth center visits surged from 777,244 (FY 2024/25) to 984,738 (FY 2025/26), driven by new sports and recreational activities. Korean volunteers introduced fresh ideas and organized engaging sessions, fostering an inclusive, welcoming environment that boosted regular attendance among both boys and girls throughout the year.

EMPOWERING YOUTH THROUGH SPORTS AND EDUCATION

Chris Easy on stage

Youth Empowerment in Action

On 15 August, in close collaboration with Our Past Initiative, we organized a vibrant community mobilization event under the theme “This is what education with purpose looks like!”. The day brought together exciting basketball competitions, life-changing guidance from RBC Rwanda on the dangers of alcohol and substance use and empowering financial literacy. It was more than just a gathering, it was an opportunity for young people to learn, grow and be inspired, all while having fun.

2.

Voluntary Counseling and Testing (VCT) services

Through Club Rafiki's VCT program, young people can access services such as counseling, family planning, pregnancy testing, blood type testing, and voluntary HIV counseling and testing (VCT). They also receive information and support on how to prevent and treat sexually transmitted infections (STIs) and get other important health services.

Table 2 *The number of youth accessed HIV Voluntary Counseling and Testing services*

# Counseled and Tested (VCT)				# HIV Positive			HIV Prevalence		Condom distributed		
M	F	Total	Couple	M	F	Total	M%	F%	M	F	Total
1,634	1,332	365	2,966	19	23	42	1%	2%	21,512	35,222	56,734

NOTE:

In FY 2024/25, HIV tested reached 2,966 youth, a decline from 3,275 the previous year, partly due to limited testing materials. Of those tested 42 were HIV positive, with female prevalence at 2%. Condom distribution also dropped significantly from 60,513 to 56,734, attributed to stock unavailability. These gaps highlight the urgent need for consistent supply of HIV prevention commodities to sustain youth protection and outreach efforts.

“When young people gain knowledge about sexual and reproductive health (SRH), they can prevent unwanted pregnancies. Through peer learning, we empower them to make healthy, responsible, and positive choices.” Chantal, Nurse, Club Rafiki

2.3. Family Planning (PF)

During this quarter, we expanded youth-friendly family planning services with the aim of contributing to the prevention of unintended pregnancies among young women. The key achievements are as follows:

Table 2.1	Method	New users	Existing Users	Total
	Subcutaneous Injectables	9	33	42
	Combined Oral Pills (Microgynon)	1	2	3
	Emergency pills	17	4	21
	TOTAL	27	39	66

Meaning:

- **New user:** Female clients who accessed family planning services for the first time.
- **Old user:** Female clients who were already using family planning methods and returned for continuation or follow-up services.
- *These services are provided only to girls and women aged between 15 and 30 years old.*

NOTE:

During this quarter, a total of 66 female clients accessed family planning services, including 27 new users and 39 existing users. The highest uptake was recorded for subcutaneous injectables (42 clients), followed by emergency pills (21 clients). These services are reserved for female clients only and continue to support women in making informed decisions about birth spacing, reproductive health, and family planning choices. Continuous counseling and follow-up remain important to ensure safe and effective use of available methods.

We should empower GIRLS AND WOMEN to make informed choices about the number of children they want by ensuring access to VOLUNTARY FAMILY PLANNING SERVICES.

3. Pregnancy testing

Youth face various sexual and reproductive health problems in developing countries. major health problems like unintended pregnancy, unsafe abortion, and sexually transmitted infections are common among youth in Rwanda. Club Rafiki tested and counselled girls and young women as highlighted below.

Table 3 *The number of young women and girls tested Pregnancy*

Results	AGE CATEGORIES					Total	%
	-16	16-20	21-25	26-30	30+		
Total Negative	0	28	153	144	99	424	66%
Total Positive	0	2	62	62	36	162	34%
General Total	0	30	215	206	135	586	100

NOTE:

Out of 586 young women tested for pregnancy, 66% were negative and 34% positive. The majority of positive cases fall within the 21–30 age group, indicating heightened vulnerability. These figures underscore the urgent need for strengthened reproductive health education and targeted interventions for young women in this age bracket.

“

“When young people learn about sexual and reproductive health, they can prevent unwanted pregnancies and make better choices. Through our peer learning and community activities, we are taking responsibility, promoting positive values, and building a healthy, informed, and strong generation.”

Stephanie, Club Rafiki

”

4. Behaviour Change Communication (BCC) activities

Behaviour Change Communication (BCC) helps young people and communities talk, learn, and share ideas that encourage healthier habits, making it easier to deal with everyday health challenges together.

Table 4 *The number of youth benefited the outreach communication' activities*

IPC & Peer Education			Education video Screening			Community outreach (special events)		
M	F	Total	M	F	Total	M	F	Total
8,038	4,430	12,468	10,564	6,853	17,417	47,100	19,950	67,050

NOTE:

These three platforms delivered rights-based SRH messages to 129,790 beneficiaries, including 85,544 males and 44,246 females, helping to promote positive changes in attitudes among young people. By using peer-led facilitation, audio-visual learning tools, and community mobilization, the program effectively encouraged health-seeking behavior, personal responsibility and values-based decision-making as protective factors against risky behaviors.

YOUTH-LED AWARENESS CAMPAIGN FOR HEALTHY AND DRUG-FREE COMMUNITIES

15 November 2025: Club Rafiki joined young people from Nzove Sector, Nyarugenge District, in a youth-led awareness campaign aimed at empowering peers with life-saving knowledge. The initiative focused on self-care, sexual and reproductive health education, and encouraged young people to stand against drug abuse, violence, and other harmful behaviors that undermine youth potential.

III. YOUTH ECONOMIC EMPOWERMENT AND EMPLOYMENT

Club Rafiki's youth empowerment services strategically support young people in navigating employment pathways by offering innovative career guidance, digital job application tools, CV/interview coaching and entrepreneurial support to unlock business growth and job opportunities.

Table 5 *The number of youth benefited this program*

Trainings on entrepreneurship and job creation			Job desk beneficiaries			Saving groups creation and follow up			
M	F	Total	M	F	Total	M	F	Total	Amount saved by youth/FRW
795	769	1,564	6,434	4,28	10,718	227	247	474	654,650

NOTE:

The table shows strong progress in youth economic empowerment through Club Rafiki programs. 1,564 youth were trained in entrepreneurship, 10,718 benefited from job desk services, and 474 joined saving groups, saving 654,650 FRW. These results demonstrate improved employability, financial literacy and active youth participation in income-generating opportunities.

BUILDING TOMORROW'S FINANCIAL LEADERS

FINANCIAL KNOWLEDGE TODAY, FINANCIAL SUCCESS TOMORROW

Following the Financial Education Training of Trainers facilitated by Alice Umulisa from the City of Kigali and Omar Tony, Club Rafiki Coordinator, joined forces as trainers trained by the International Labour Organization (ILO), to deliver a three-day Financial Education training from 25 to 27 March 2027 at Club Rafiki Youth Center, Kigali. The session brought together 13 young participants, 9 females and 4 males, equipping them with essential money-management, decision-making and financial literacy skills to navigate their economic futures with confidence. A defining moment of the training came during the session on needs versus wants, where participant Joyce captured the spirit of the program: *"Understanding the difference between a need and a want is the first step to taking control of your money."*

The Journey of success:

FROM YOUTH TRAINING TO GROWING RESTAURANT BUSINESS

Ramazani Mutiganda, a 22-year-old entrepreneur from Nyakabanda Sector, transformed his life through entrepreneurship training at Club Rafiki Youth Center. He started a small restaurant and food delivery business, serving up to 30 customers daily. Despite challenges, he remains committed to growth, independence, and inspiring other youth.

PHILEMON'S JOURNEY TO EMPLOYMENT

Philemon joined Club Rafiki with the hope of getting a job in accounting and finance. He united a study group where youth shared notes, practiced past job exams, and supported each other. With this preparation, he passed his job exam and found employment in Rwanda Revenue Authority (RRA) after spending more than six months searching a Job. At work, he gained new skills and confidence that he did not have before. His job now helps him support his family and plan for the future. Philemon encourages other youth to join Club Rafiki, prepare well, stay honest, and believe that good jobs are possible with effort and teamwork.

IV. ICT AND COMPUTER SKILLS

Youth visiting the center value ICT services for enhancing their lives in today's digital world. Club Rafiki's ICT lab serves as a key hub for strengthening youth digital skills.

Table 6 *The number of youth advanced the ICT activities*

Male	Female	Total	%M	%F	Computers with Good condition
10,047	4,530	14,577	69%	31%	21

NOTE:

The ICT skills program engaged 14,577 youth, including 10,047 males (69%) and 4,530 females (31%), using 21 well-functioning computers. However, participation dropped from 20,350 due to limited internet access and outdated equipment. Improving infrastructure is essential to expand digital learning opportunities and meet increasing demand for ICT skills development.

EMPOWERING RWANDA'S YOUTH THROUGH DIGITAL INCLUSION

Kigali, October 11, 2025 — known as Global Girls Day, Club Rafiki proudly received a vital pledge of ICT equipment support from Ecobank Rwanda, reinforcing the bank's commitment to youth empowerment and digital inclusion nationwide. The event was honored by the presence of Dr. Ngabo Brave, Permanent Secretary at the Ministry of Youth and Arts, highlighting strong public, private collaboration in empowering youth as our future.

EMPOWERING YOUTH WITH FINANCIAL SKILLS

After receiving the Financial Education Training of Trainers in November 2025, supported by the International Labour Organization (ILO) in collaboration with the Ministry of Youth and Arts, the program aimed to strengthen youth financial literacy, decision-making, and money-management skills. From Wednesday 25 to Friday 27 February 2026, Omar Tony Nsengumuremyi,

Center Manager of Club Rafiki Youth Center, together with Tadeo Talemwa, Kimisagara Youth Center Manager, conducted a three-day Financial Education training for 13 youth (6 boys and 7 girls) including 1 youth with disability, aged between 19 and 26. As Nusrat shared, *“Financial knowledge gives young people power to choose safe and smart options for their future.”*

YOUTH LEARN AI SKILLS AT CLUB RAFIKI

From March 19, 2026, Club Rafiki successfully organized the *“Unlock Your Future with AI Skills – Basic Level”* training for 18 youth. The sessions were divided into two groups, one in the morning and one in the evening, ensuring all participants could attend. Among them, 6 young women took part, learning essential skills in AI prompt writing, AI research, image generation, video creation, and practical use of AI technologies. This training, held over 20 days in 3 months, equipped participants with valuable tools to explore opportunities in the digital world.

Empowering Youth through AI-Supported Language Learning

Since 2017, Club Rafiki, in partnership with Indigo Foundation and Friends of Rafiki, has implemented the English Corner Workshop (ECW) to support English learning among youth from public schools. The program currently engages over 40 children and young people, including 34% girls, with a strong focus on digital inclusion. To further enhance learning through ICT and AI, a partnership with Promova was established, providing 10 selected participants with premium AI-powered language learning tools. From 8 May to 8 August 2026, learners received onboarding, personalized guidance, learning resources, and continuous support, with progress tracked through a digital dashboard. This initiative, valued at approximately USD 1,000, significantly strengthens communication skills, confidence, and future employability.

USING THE POWER OF MEDIA TO IGNITE YOUTH POTENTIAL

V. COMMUNITY LIBRARY, CULTURE AND ARTS

Our community library is a source for promoting the culture of reading and writing stories that make up books about Rwanda. This space helps young people review their lessons and connect with peers who share the same vision.

Table 7 *The number of youth attended the community library*

Library services, Culture and Arts				
M	F	Total	M%	F%
6,071	6,843	12,914	47%	53%

NOTE:

The number of youth attending the community library declined from 17,703 to 12,914, primarily because children in primary and secondary schools are now engaged in academic programs until 5PM Monday to Friday and Saturday. This new structured school schedule directly reduced daytime library visits, affecting overall attendance figures.

The Community Library provides a welcoming space where youth can access information, resources, and opportunities to learn, grow, and connect with various educational and career pathways.

Using art to inspire and teach youth about creativity

STORIES SUCCESES

Practice makes progress

The cultural dance troupe “IMPANGAZI Traditional Troupe” is made up of over 100 youth, mostly girls who represent more than 70% of its members. The troupe has been active at the Club Rafiki Youth Center for over three years, having started in early 2022.

The stage is where talent meets opportunity.

The troupe has gained recognition for its role in entertaining at various events, especially weddings and other celebrations organized by different authorities. It had the honor of performing at the MOYA ceremony supporting cultural troupes, where they were provided with all necessary equipment, held on 30 January 2026.

Celebrating love is richer when our culture leads the way.

With these new resources, the troupe’s activities have further improved. Members expressed their gratitude, emphasizing that this support serves as another motivation to advance their skills and continue developing, in alignment with national support for youth initiatives.

VI. VOCATIONAL TRAINING

Vocational training refers to instructional programs or courses that focus on the skills required for a particular job function or trade. In vocational training, education prepares youth/trainees for specific careers, disregarding traditional, unrelated practical subjects.

Table 8 *The number of youth benefited the activities of the vocational trainings*

Handcraft/Tailoring			Guitar and Music Class			knitting and crocheting		
M	F	Total	M	F	Total	M	F	Total
397	2,164	2,561	830	357	1187	36	240	2776

NOTE:

Across all vocational programs, a total of 4,024 beneficiaries were reached, comprising 1,263 males (31%) and 2,761 females (69%). The data shows a strong and consistent female participation across the activities. This high level of engagement highlights the vital role of vocational training in empowering young women with practical, income-generating skills, contributing to sustainable livelihoods and greater financial independence.

17/07/2025: Club Rafiki and RTB have joined efforts to address the growing need for youth to acquire hands-on vocational skills as a key to their personal and national development. With official accreditation from RTB to deliver tailoring training, Club Rafiki launched a six-month program targeting youth eager to learn. The first cohort (Cohort I) has now successfully completed the training, consisting of 13 young people including 10 girls (77%) and 3 boys (23%) aged between 16 and 30. This report presents the achievements of the program conducted from October 7, 2024 to May 30, 2025 at Club Rafiki Youth Center located in Rwezamenyo Sector.

EMPOWERING YOUTH IN KANYINYA THROUGH HANDCRAFT AND JEWELRY MAKING

Through our outreach activities, we reached youth living far from the main youth centers. Young people in Kanyinya Sector, Nzove Cell, were excited to learn handcraft and jewelry-making skills. This initiative is positively transforming the lives of teenage mothers, giving them practical skills, income opportunities, and hope for a better future.

6-MONTH SHORT COURSE IN **TAILORING** STARTING FEBRUARY 2026

“This experience gave me confidence to contribute in promoting Libaya, an African female fashion style, and showed me that men too can play a strong role in advancing women’s fashion.” – Grace, 26 years Old

VII. SPORT, LEISURE, TALENT DETECTION AND PROMOTION

When working with youth, sports, games, and entertainment come first. Successfully organizing these activities provides a great opportunity to discover the talents of children and youth advocate for them, and help them grow to benefit their owners and uplift national pride.

Table 9 *The number of youth benefited this youth friendly services*

Sports and Leisure			Talent detection and promotion		
M	F	Total	M	F	Total
394,456	196,500	590,956	27,799	13,787	41,586

NOTE:

Total youth reached: 632,542 (Sports & Leisure: 590,956 | Talent Detection: 41,586). Female participation stands at 210,287 (33%) versus 422,255 males (67%). Girls remain underrepresented across both services, urging targeted interventions to boost female engagement in sports and talent development programs.

At Kanyinya playground

Nshobozwa, a basketball star from Club Rafiki, inspiring and training young players for a brighter future.

KIGALI YOUTH FESTIVAL COMPETITION 2025 AT CLUB RAFIKI

On August 29, 2025, the Kigali Youth Festival Competition kicked off at Club Rafiki in Nyamirambo, bringing together over 1,000 young people from Nyarugenge District. Organized by the City of Kigali for the fourth time under the theme “Talents Create Opportunities for Youth,” the festival aimed to promote creativity and innovation. Youth showcased their skills through modern dance and poetry, celebrating their potential and diversity. After city-level selections, participants from Club Rafiki won several awards that will support them in further developing their talents and opening doors to future opportunities.

CLUB RAFIKI IGNITES

ISHOWSPEED MEETS RWANDA'S YOUTH ENERGY

Club Rafiki delivers an unforgettable community experience as iShowSpeed connects with over 1,000 fans, showcasing Rwanda's vibrant youth talent, creativity, energy and culture through live performances, interactive challenges and inspiring local entertainment in a dynamic celebration of community spirit and global digital influence.

The Hug of Community

BRINGING OPPORTUNITIES CLOSER TO YOUTH

Club Rafiki actively reaches rural youth in Nyarugenge, especially Kanyinya and Mageragere, through programs in ICT, reproductive health, environmental protection and modern and traditional arts. We also provide essential materials and support community infrastructure through advocacy. The Kanyinya Community Project (KCP), supported by Friends of Rafiki, strengthens unity, skills and youth empowerment. Community feedback confirms impact:

“Working with Club Rafiki gives us hope for a better future.” — Sandrine, 19

*“After-school programs improve learning and talent development.”
— GS Kanyinya School Principal*

*“My child is more confident and expressive.”
— Parent*

These voices confirm that empowering youth builds stronger, hopeful communities.

This playground will help young people grow and develop their talents.

Youth in Kanyinya Sector have received a newly built playground, developed in partnership with Club Rafiki, TSS Kanyinya, and GS Kanyinya, supported by Friends of Rafiki.

VIII. COOPERATION AND VOLUNTEERING

BUILDING **YOUTH SKILLS** THROUGH GLOBAL VOLUNTEER PARTNERSHIPS

Following the successful hosting of the first batch of five Korean volunteers by Club Rafiki from 28 November 2025 to 27 February 2026, Club Rafiki, in partnership with KOICA Rwanda and the Ministry of Youth and Arts, welcomed the second batch of Korean volunteers from 28 April to 27 August 2026 to support youth empowerment initiatives.

Through this global volunteer partnership, more than 100 young people benefited from training and activities in digital skills, artificial intelligence (AI), career guidance, music education, sexual and reproductive health (SRH) awareness, sports, and cultural exchange activities.

A Taekwondo participant shared: *“This training taught me discipline, confidence, and teamwork beyond the sport.”* The program strengthened youth skills, promoted personal development, and enhanced community engagement through knowledge sharing and intercultural collaboration

TAEKWONDO CLASSES,

TAEKWONDO CLASSES,
as a new program, are opening an exciting future for sports development at Club Rafiki, inspiring discipline, strength, and youth potential

MUSIC EDUCATION
helps nurture and develop youth talent, unlocking creativity, confidence, and opportunities for artistic growth.

MUSIC EDUCATION

From Learners to Leaders:

Club Rafiki Alumni Driving Rwanda's AI Future

Through a strategic partnership between Club Rafiki and Arise Digital Solutions Ltd., young people have transformed from AI learners into emerging digital professionals. Since 2025, 27 youth gained practical AI skills, and three Club Rafiki alumni were selected for the Arise AI Fellowship. Today, they contribute to real projects, mentor others, and support new AI training programs. This success story demonstrates the power of skills development, mentorship, and partnerships in empowering youth to shape Rwanda's digital future.

From left: *Kwizera Selemani, Kayitesi Annet, and Irankunda Abdoul Djalilu, the first three Club Rafiki alumni selected as Arise AI Fellows, together with Peter Hwang, Founder of Arise Digital Solutions Ltd. and AI Trainer*

HYGIENE EDUCATION AND DANCE PROMOTION TRAINING

From 14–16 April 2026, Club Rafiki hosted a 3-day training for 100 young people in partnership with Ishami Talents. Participants gained valuable knowledge on personal hygiene, community cleanliness, and creative dance expression, promoting healthy lifestyles, confidence, and talent development among youth through education and artistic engagement.

IX. STRENGTHS

Youth volunteerism and community dedication remain Club Rafiki's greatest assets, sustained by strong collaboration with government, local and international NGOs, embassies and partners whose financial and technical support continuously drives our mission forward.

X. CHALLENGES

1. Limited outreach activities to reach both in-school and out-of-school youth, especially in rural areas.
2. Insufficient ICT equipment, including a need for at least 30 computers and faster internet.
3. Limited programs focused on economic empowerment, vocational training, and entrepreneurship.
4. Inadequate and underdeveloped infrastructure to expand youth services.
5. Shortage of trainers, limited partners and insufficient funding affecting sustainability and growth of programs.

XI. FUTURE PLAN

1. Expand outreach through sports, campaigns, and community-based youth engagement.
2. Invest in ICT infrastructure, including computers and reliable high-speed internet.
3. Strengthen vocational training and entrepreneurship programs to reduce youth unemployment.
4. Improve and upgrade youth-friendly infrastructure.
5. Increase partnerships, recruit more trainers and mobilize sustainable funding sources.

XII. CONCLUSION

Club Rafiki's growing impact with 35% female participation and stronger disability inclusion; reflects our resilience. With continued partnerships and shared commitment, youth will powerfully drive inclusive, sustainable development locally and globally.

Thanks

SPECIAL THANKS

TO OUR PARTNERS – 2025/26

Club Rafiki expresses sincere gratitude to all partners whose collaboration has strengthened youth empowerment and expanded impactful community programs throughout 2025/26.

Public institutions have played a vital role in strengthening youth development by supporting operations and creating a more effective and supportive environment at the youth center.

Indigo Foundation's 13-year partnership has advanced gender equality through programs like Urban Dance School and English Corners, increasing female participation from 15% to 27%.

Individual supporters enabled the Kanyinya Community Project (2024), empowering girls and young women in community-driven solutions.

Karame Rwanda Ltd, a Rwandan construction company, supported the renovation of Club Rafiki's infrastructure. This exceptional contribution has created a better environment for youth development and engagement.

KOICA Rwanda provided 15 Korean volunteers and renovated the youth hall, boosting creativity and exchange.

Let's
BUILD
the
FUTURE TOGETHER
